

Dear Sirs,

I am an paying customer of XM Radio and enjoy all the benefits that it has to offer. I especially enjoy the lack of commercials and am willing to pay a price for that benifit. I also like the fact that the programming is growing to include local traffic and local weather. I don't think that it should be up to the National Association fo Broadcasters to determine what services I should be able to purchase. This is America and all services should be provided competitively. Please reject NAB's petition 04-160 and allow me the ability to make my own choice on what I want to listen.

Sincerly,

Don Schneider

Palm Harbor, Florida 34683
